

PLAY THE JURASSIC WORLD DINOSAUR GAME

Test your family's knowledge about dinosaurs and get ready to move your legs.

JURASSIC WORLD
ADVENTURE
IS CALLING!

HOW TO PLAY:

Players advance the number of spaces that is determined by a paper die. In each cell, there is a number. When a player lands on a cell he must consult the legend to find out what the number corresponds to. If a player lands on a cell that has been previously occupied by another player, the player has to go to the next cell.

MISSIONS:

- 5 Name **1 species of herbivorous dinosaur** or go back to the initial cell.
- 9 How tall is a **Brachiosaurus**? (**8 M - 12 M - 16 M**)
- 13 Run like a **Velociraptor** for **60 seconds** or go 3 cells back.
- 17 The **Sinoceratops** is the first ceratopsid dinosaur discovered in Asia.
True or false?
- 25 Which of these dinosaurs have no teeth?
Ankylosaurus - Spinosaurus - Pteranodon
Go 1 cell back if you don't know the answer.
- 29 Walk in a squat position like a **T. rex** for **15 seconds** or go 2 cells back.

ANSWERS:

- 25 Pteranodon have no teeth and primarily subsist on a diet of fish.
- 17 It's true! He lived 72 million years ago and is the first ceratopsid dinosaur found in Asian lands.
- 6 The Brachiosaurus is about 12.4 meters tall. In fact, even his humerus alone is over six feet long. That's taller than most people!
- 5 The Parasaurlophus, the Stegosaurus and the Apatosaurus are 3 herbivore dinosaurs. They love to eat different varieties of plants and rotting wood.
